

I am writing to tell the FCC commissioners to not allow Big Cable to grow even bigger.

I oppose any further loosening of the national cable ownership limits. I also oppose the Comcast-Time Warner buy-out of Adelphia Communications.

I have had enough of these monopolistic cable companies raising my rates while providing poor service. They have violated the public's trust and should not be allowed to get any bigger.

I live in a market that is dominated by one cable company. St. Louis cable subscribers are limited to one company: Charter Communications.

Thank you,

Mr Eric Bueneman
